## EXPERIENCE

### Data Engineering Virtual Internship, AICTE April -June 2024

- I recently completed a virtual internship in Data Engineering through AICTE, where I used AWS tools such as IAM, S3, Glue, Athena, and QuickSight.
- This experience involved working on data storage, ETL processes, and data analysis. It enhanced my skills in managing cloud-based data workflows and creating insightful visualizations.

### Honors in computer science and engineering , GVPCE

- Web Designing (HTML, CSS, JS)
- Node JS web Development

## PROJECTS

### Personal Portfolio Website

- Creating a simple website to showcase skills, projects, and experiences using **HTML** for structure, **CSS** for styling, and **JavaScript** for interactivity such as smooth scrolling navigation or image sliders.

### Developers Hub Application

- Developed a Developer Hub application using the **MERN** stack, facilitating seamless project collaboration and resource sharing among developers.
- MongoDB for database management, Express for backend API development, React for the frontend user interface, and Node.js for server-side execution, enabling a robust platform for collaborative project management and resource sharing among developers.

## ACHIEVEMENTS

I have solved DSA problems in coding platform like geeks for geeks and Leet code.
